

# AYORINDE AKINDEMOWO

SENIOR SOFTWARE DEVELOPER ☎ +2347061943535

## ◦ DETAILS ◦

+2347061943535

[ayorinde223@gmail.com](mailto:ayorinde223@gmail.com)

## ◦ SKILLS ◦

Php(Laravel)

JavaScript

nodeJS

Typescript

NestJs

ReactJS

mySQL

PostgreSQL

AdonisJS

Docker

Git

VueJS

Solidity

AWS

## ◦ HOBBIES ◦

Software Development, Surfing the internet, Soccer, Music.

## ◦ LANGUAGES ◦

English

## 👤 PROFILE

My name is Ayorinde. I am a versatile, resourceful, result-oriented software enthusiast with 5+ years of work experience building commercial software products using modern web technologies. I have successfully launched full applications in different niches including but not limited to e-commerce, medicine, Fintech, Real Estate, etc., so I understand how to effectively contribute to the entire product development life cycle. My passion for technology extends beyond basic development and into the realm of research and contributing to the cutting edge of web 3.0

## 📁 EMPLOYMENT HISTORY

### Senior Software Developer at PATRICIA TECHNOLOGIES LIMITED, Tallin, Harjumaa, Estonia

June 2019 — Present

- I implemented an authentication client that manages clients and client keys (NPM Package) that is used across Products in the company
- I integrated crypto services into the system, leveraging services like (bitgo, thresh0ld) and a custom Rate service
- I Created an architecture that helps Patricia customers perform sell and buy crypto services, and create Blockchain wallets by leveraging on Hierarchical Deterministic (HD) Wallets Architecture.
- I implemented Worked on Patricia Payment, leveraging on Paystack payment solution and other banks' gateways
- I implemented a wallet system (Fiat wallet, Crypto Wallet) leveraging Microservices Approach
- I built Patricia International (E-commerce Web App) that facilitates trading of giftcards
- Lead a Team where we built and managed Bills payments (Airtime, Data, TV/Cable and Electricity subscription)

Technology used: NodeJS | Jest | Typescript | Laravel(PHP) | PHPUnit | mysql | git | Docker

### Mid Software Developer at NETPLUSDOTCOM, Lagos, Nigeria

May 2018 — June 2019

- I built a consumable web service to facilitate payment.
- I built And Consuming Web services from Payment gateway solutions like (Interswitch, Visa, MasterCard, GtBank (Gt pay ), Nibbs payment ) that rides on the payment services
- Created Real Estate applications that helps manage, bills payment, and electricity tokens which helps in the ease and management of Residents day to day life.
- Developed Front End Development (NetPlusPay.com)
- Effectively addressed complex bugs.
- Implemented and updated application modules.

Technology used: Laravel(PHP) | PHPUnit | NodeJS | Jest | MySQL | git | Docker

### Junior Software Developer at MUTUAL BENEFITS MICROFINANCE BANK

September 2017 — May 2018

- Implemented payment gateways in web applications.

- Asp.net building Banks website
- Unit Testing and Debugging banks Application and adding features based on customer requests.
- Developed and implemented the web applications, based on .NET applications.

Technology used: Asp.net | xUnit | NodeJS | Jest | MySQL | git
